"Timeless Beauty... Uncompromising Performance"

With its genuine slate-like appearance and Super-Heavyweight "Plus" construction, Camelot® may be the finest asphalt shingle ever made!

for PROPERTY OWNERS

- **Affordable Luxury...** Camelot® is GAF-Elk's top-of-the-line shingle—yet it's only a fraction of the cost of expensive slate or wood shakes
- **Breathtakingly Beautiful...** Unique design and striking color blends create maximum "curb appeal"
- **Super-Heavyweight "Plus" Construction...** Over 400 lbs. per square for ultimate durability (in fact, each layer of Camelot® shingles is up to 60% thicker than each layer of many other "premium" asphalt shingles)
- **Stays In Place...** Double row of Dura Grip® adhesive seals each shingle tightly and reduces the risk of shingle blow-off. Shingles warranted to withstand winds up to 130 mph!†
- **High Performance...** Custom specified, ultra-high performance Micro Weave® core provides better protection layer for layer
- **StainGuard® Protection...** Helps assure the beauty of your roof against unsightly blue-green algae*
- **Safer...** Class A fire listing from Underwriters Laboratories, the highest rating possible
- **Peace Of Mind...** Lifetime ltd. transferable warranty with Smart Choice® Protection (non-prorated material and installation coverage) for the first ten years*
- **Perfect Finishing Touch...** Premium Timbertex® ridge cap shingles with StainGuard® protection lend the perfect finishing touch

for PROFESSIONALS

- **Quicker Installation...** Large, 17" x 34½" size saves labor, allowing you to offer superior value and greater homeowner satisfaction
- **More Referrals...** Unique and distinctive design that other homeowners will notice!
- **Less Chance Of Call-backs...** When tested, shingle withstands winds up to 130 mph† (under controlled laboratory conditions)

*See ltd. warranty for complete coverage and restrictions.

†Wind speed coverage on Camelot shingles requires special installation. See ltd. warranty for details.

Note: It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

Smart Choice® ROOF SYSTEM SOLUTION

"Your Best And Safest Choice... Quality You Can Trust Since 1886!"

Leak Barrier

Weather Watch® and **StormGuard®** provide exceptional protection against leaks caused by roof settling and extreme weather. Ideal upgrade at all vulnerable areas (including at the eaves in the North*).

Roof Deck Protection

"Breathable" **Deck-Armor™** allows moisture to escape from your attic while providing an exceptionally strong layer of protection against wind-driven rain. It also lays flatter for a better-looking roof. **Shingle-Mate®** also provides great protection for your roof.

Quality Shingles

Choosing the right shingle can increase the value of your home. GAF-Elk offers you many great shingle choices, including **Timberline®**, the #1-selling architectural shingles in North America.

Effective Attic Ventilation

Cobra® and **Master Flow®** vents help remove excess heat and moisture from your attic that can raise your energy bills, cause premature peeling of interior paint and wallpaper, and even affect your health.

Distinctive Ridge Cap Shingles

Similar to the way that a distinctive frame enhances a painting, **Timbertex®** and **Ridglass®** can enhance the beauty and value of your home—while guarding against leaks at the hips and ridges.

Reliable Low-Slope Membranes

Liberty™ and **Freedom™** commercial-grade self-adhering roofing systems are exceptionally dependable! They're safer too, because no open torches or hot asphalt are used.

Pre-Cut Starter Strip Shingles

WeatherBlocker™ and **Pro-Start™** pre-cut starter strip shingles provide an upgrade that can save time, eliminate waste, and reduce the risk of blow-off by tightly locking your first course of shingles in place.

Roof Accessory Paint

ShingleMatch™ premium roof accessory paint is a great option to help you "hide" unsightly roof accessories by making them blend in with the color of your shingles... for a better-looking finished roof.

*In the "North," building code requires the use of Leak Barrier at the eaves.
